How to Connect or Move to a Group

You can join a group with the group's unique code. If you don't have the code, please stop and ask your teacher.

1. When you have your group code, log in to your **Student Account** and go to **Settings** on the top bar.

2. Enter or change the **Group Code** in the box. Scroll down and click Save.

3. Access your group by going to **My Groups** on the side pane. You can view your classroom bookshelf and find out what your classmates are reading.
